

# TriHealth Mobile Mammography is coming to a location near you

Screening mammography is recommended for women 40+ and for women 35-39 who are considered high-risk or have a close family history of breast cancer. If you are under 40, please check with your insurance provider regarding coverage.

Screening mammograms are recommended annually. If you are scheduling fewer than 12 months from your previous exam, it is your responsibility to confirm insurance coverage.

Appointments are scheduled in 10-minute increments, so you should plan to spend 30 minutes on the van including check-in.

**TSD APPROVED  
for distribution**

**5301 University Park Blvd.  
Oxford Ohio 45056**

**Monday, 5/5/25  
8:50 am- 3:20 pm**

**To schedule an appointment, scan  
the QR code or call 513 569 6565.**
